# Powwow Arbor Steel Structure Project

## Twin Buttes, ND

**\$1.2M+ Cultural Gathering Venue Construction**

1.5-Month Build · Ground-Up Steel Arbor · Multi-Tiered Structure

## Project Overview

A \$1.2M+ powwow arbor construction project completed in just 1.5 months — delivering a complete steel structure from the ground up for a multi-tiered cultural gathering venue, with grass turf decks and bleachers completed by other trades, plus additional concrete walkway construction under a separate contract.

Contract Value

**\$1.2M+**

Total construction  
contract

Initial scope completion

Scope

**Steel Arbor**

Ground-up structural  
work

# Architectural Features

This powwow arbor project showcases precision steel structure construction for a multi-tiered cultural gathering venue — with complete structural steel work from foundation to roof deck, plus concrete walkways, setting the stage for the grass turf and bleacher installations that followed.

## Scope of Work

- **Complete Steel Arbor Structure** — Ground-up construction of multi-tiered steel framework
- **Octagonal Design** — Custom polygonal structure with distinctive tiered roof system
- **Red Metal Roofing** — Corrugated metal roof installation with central skylight feature
- **Concrete Walkways** — Additional contract for wide pathways and plaza areas under separate awarded contract
- **Structural Steel Columns** — Heavy-duty support pillars and steel framework throughout
- **Trade Coordination** — Seamless handoff to turf and bleacher installation teams
- **Timeline Delivery** — On-schedule completion within 1.5-month window

## Key Features

- **Ground-Up Construction** — Complete structural build from foundation to roof
- **Multi-Tiered Steel Structure** — Professional steel framework for cultural gathering venue
- **Central Skylight Feature** — Radial glass panel design allowing natural light
- **Efficient Workflow** — 1.5-month delivery from start to structural completion
- **Trade-Ready Handoff** — Clean structure ready for turf and bleacher installation
- **Cultural Significance** — Purpose-built venue for powwow gatherings and community events

## Steel Structure Excellence

This powwow arbor project demonstrates the precision and efficiency of professional steel structure construction — building a complete multi-tiered cultural gathering venue in just 1.5 months, with every column, beam, and roof system ready for the turf and bleacher installations to follow.

## Project Highlights

## 1.5-Month Construction Timeline

This \$1.2M+ construction contract was completed in just 1.5 months, delivering a complete steel arbor structure for a multi-tiered powwow venue. The tight timeline required expert coordination, efficient material delivery, and a skilled crew working in sync to meet every milestone for this culturally significant project.

## Steel Arbor + Concrete Walkways

Our team built the complete steel arbor structure from the ground up, including the distinctive multi-tiered roof, support columns, and framework. An additional contract covered the concrete walkways shown in the photos. Grass turf decks and bleacher installations were completed by other trades, allowing us to deliver precision steel work on an accelerated schedule.

# Professional Steel Construction, On-Time Delivery

This powwow arbor project represents our commitment to quality steel structure construction and efficient project delivery — completing a \$1.2M+ contract in 1.5 months and delivering a culturally significant, trade-ready venue that serves as a gathering place for the community.
